1 Introduction

The Manual of Procedures (MOP) details the responsibilities of the Young Engineers in ASHRAE (YEA) Committee, including the responsibilities of the Chair, two (2) Vice Chairs, and Staff Liaison. Its main purpose is to record the details of how committee functions are carried out:

   a. For the education of new members;
   b. As a checklist for all members to see that they are performing all tasks for which they are responsible;
   c. As a yardstick in evaluating committee member performance.

This is a living document and is always subject to any changes deemed necessary by the Committee. There is always room for improvement; and methods must change to suit times and needs. This MOP should be considered a foundation on which to build.

Duties of committees are assigned by the Board of Directors. It is important that committee members be aware of the responsibilities assigned to their committee as well as those assigned to other committees in order to avoid confusion and accomplish the mission of the Society in an orderly fashion.
