Host Chapter	x
Conferences and Expositions Committee and Transactions Staff	x
State of the Society, William A. Harrison, 2008–2009 ASHRAE President	xi
Technical Program	xiv

TRANSACTIONS PAPERS

CH-09-001 Hybrid Ventilation Control Design and Management M. El Mankibi and P. Michel	3
CH-09-002 A Reference Environment for the Calculation of the Exergy Value of Air in Buildings P. Sakulpipatsin, H.J. Van Der Kooi, E.C. Boelman, L.C.M. Itard, and P.G. Luscuere	10
CH-09-003 Occupant Behavior in Naturally Ventilated and Hybrid Buildings Paul G. Tuohy, Michael A. Humphreys, J. Fergus Nicol, Hom B. Rijal, and Joe A. Clarke	16
CH-09-004 Withdrawn	
CH-09-005 Pressure Loss of Corrugated Spiral Duct D. Kulkarni, S. Khaire, and S. Idem	28
CH-09-006 Measurements of Flat Oval Elbow Loss Coefficients (RP-1319) D. Kulkarni, S. Khaire, and S. Idem	35
CH-09-007 Influence of Aspect Ratio and Hydraulic Diameter on Flat Oval Elbow Loss Coefficients (RP-1319) D. Kulkarni, S. Khaire, and S. Idem	48
CH-09-008 Particulate and Gaseous Contamination: Effect on Computer Reliability and Monitoring Prabjit Singh, Joseph F. Prisco, and Roger R. Schmidt	58
CH-09-009 Air Management Metrics in Data Centers Robert Tozer, Chris Kurkjian, and Munther Salim	63
CH-09-010 Dehumidification of Outdoor Air in Datacom Environments for Air-Side Economizer Operation Thomas A. Davidson	71
CH-09-011 Experimental Investigation of the Flow of R-134a through Adiabatic and Diabatic Capillary Tubes Mohd. Kaleem Khan, Ravi Kumar, and Pradeep K. Sahoo	82
CH-09-012 Performance Prediction of Adiabatic Capillary Tubes by Conventional and ANN Approaches: A Comparison Mohd. Kaleem Khan, Ravi Kumar, and Pradeep K. Sahoo	93
CH-09-013 Chillin' at the Symposium with Plato: Refrigeration in the Ancient World Richard Love	106
CH-09-014 Lessons Learned from the Cold Storage Fire at the Chicago World's Fair of 1893 Andy Pearson	111
CH-09-015 Was Ice Making John Gorrie's Greatest Legacy? Bernard A. Nagengast	122

CH-09-016	A Detailed Model to Determine the Effective Solar Optical Properties of Draperies Nathan A. Kotey, John L. Wright, and Michael R. Collins.....	130
CH-09-017	Determining Off-Normal Solar Optical Properties of Roller Blinds Nathan A. Kotey, John L. Wright, and Michael R. Collins.....	145
CH-09-018	Determining Off-Normal Solar Optical Properties of Insect Screens Nathan A. Kotey, John L. Wright, and Michael R. Collins.....	155
CH-09-019	Use of Air-Handling Equipment to Manage Smoke Movement During a High-Rise Fire W.Z. Black	165
CH-09-020	Evacuation Design Strategies and Considerations for Tall Buildings: Suggested Best Practices Jeffrey S. Tubbs, Brian Meacham, and Amanda Kimball	182
CH-09-021	Implications of Filter Bypass John VerShaw, Jeffrey A. Siegel, David B. Chojnowski, and Paul J. Nigro.....	191
CH-09-022	Laboratory Measurements to Quantify the Effect of Bypass on Filtration Efficiency David B. Chojnowski, Paul J. Nigro, Jeffrey A. Siegel, and Douglas R. Kosar	199
CH-09-023	Combined Heating and Power Using Microturbines in a Major Urban Hotel Timothy C. Wagner, Richard S. Sweetser, Neil P. Leslie, and Therese K. Stovall.....	208
CH-09-024	Recovered Energy Generation Using an Organic Rankine Cycle System Neil P. Leslie, Richard S. Sweetser, Ohad Zimron, and Therese K. Stovall.....	220
CH-09-025	Liquid Cooling in Data Centers Tahir Cader, Vali Sorel, Levi Westra, and Andres Marquez	231
CH-09-026	Real-Time Data Center Energy Efficiency at Pacific Northwest National Laboratory Daniel R. Sisk, Mohammad A. Khaleel, Andres Marquez, Darrel Hatley, Tahir Cader, and Roger Schmidt	242
CH-09-027	Verification of CFD Modeling for Smoke Control Using Two Compartment Fire Experiments Kai Kang	254
CH-09-028	Impact of Various Parameters on the CFD Predictions of Atrium Smoke Management Systems George Hadjisophocleous and Yoon J. Ko	263
CH-09-029	Cost Penalties of Near-Optimal Scheduling Control of BCHP Systems: Part I—Selection of Case Study Scenarios and Data Generation (RP-1340) Itzhak Maor and T. Agami Reddy	271
CH-09-030	Cost Penalties of Near-Optimal Scheduling Control of BCHP Systems: Part II—Modeling, Optimization, and Analysis Results (RP-1340) T. Agami Reddy and Itzhak Maor	287
CH-09-031	Modeling the Performance of Single-Duct VAV Systems that use Fan Powered Terminal Units (RP-1292) Michael A. Davis, John A. Bryant, Dennis L. O'Neal, and Andrew Cramlet	308
CH-09-032	Experimental Verification of a Three Zone VAV System Model Operating with Fan Powered Terminal Units (RP-1292) John A. Bryant, Michael A. Davis, Dennis L. O'Neal, and Andrew Cramlet	314

CH-09-033	Reflections on ARI/ASHRAE Research Project RP-1292, Comparison of the Total Energy Consumption of Series versus Parallel Fan Powered VAV Terminal Units (RP-1292) Eugene W. (Gus) Faris	322
CH-09-34	A Comparative Study Between a Constant-Speed Air-Conditioner and a Variable-Speed Air-Conditioner Ing Youn Chen, Y.M. Chen, Y.J. Chang, C.S. Wei, and C.C. Wang.....	326
CH-09-35	Advancing Automated Demand-Response Technology Steven T. Bushby and David G. Holmberg	333
CH-09-36	BACnet Object Modeling by UML on High-Level Functionality of VRF Air-Conditioning Systems Chuzo Ninagawa and Tomotaka Sato	338
CH-09-37	Calibration of a Building Energy Model Using Measured Data Danielle Monfet, Radu Zmeureanu, Roland Charneux, and Nicolas Lemire.....	348
CH-09-38	Characterization of Cooking Effluent from Seven Commercial Kitchen Appliances and Representative Food Products (RP-1375) Thomas H. Kuehn, Bernard A. Olson, James W. Ramsey, and Joshua M. Rocklage	360
CH-09-39	Comparisons of HVAC Simulations Between EnergyPlus and DOE-2.2 for Data Centers Tianzhen Hong, Dale Sartor, Paul Mathew, and Mehry Yazdanian	373
CH-09-40	Data Processing and Data Mining on Energy Consumption Database of Commercial Buildings in Shanghai Yiqun Pan, Zhizhong Huang, and Xiaowei Zheng	382
CH-09-41	Effectiveness and Performance of a Counterflow Liquid Desiccant Regeneration Tower in a Hot-Humid Climate Esam Elsarrag and Kamal Abdalla	389
CH-09-42	Electrochemical Cooling Water Treatment: A New Strategy for Control of Hardness, Scale, Sludge and Reducing Water Usage Henry A. Becker, Jon J. Cohen, and Alan D. Zdunek	399
CH-09-43	Energy Analysis of a 1-Ton Generator-Absorber-Exchange Absorption-Compression (GAXAC) Cooler A. Rameshkumar, M. Udayakumar, and R. Saravanan	405
CH-09-44	Energy Conservation at the Oak Park Public Works Center Jonathan Mesik and Doug Howery	415
CH-09-45	Energy Efficient, Cost Effective, Passive Solar House James A. Mathias and Duane M. Mathias	419
CH-09-46	Field Testing Residential Fan-Assisted Gas-Fired Furnaces— Part I: Effects of Altitude on Safe Operation Limits and Current De-rating Standards (RP-1182) B.A. Fleck, S.C. Arnold, M.Y. Ackerman, J.D. Dale, W.E. Klaczek, and D.J. Wilson.....	427
CH-09-47	Field Testing Residential Fan-Assisted Gas-Fired Furnaces— Part II: Effects of Altitude on Steady State Efficiency and Nitric Oxide Emissions (RP-1182) B.A. Fleck, S.C. Arnold, M.Y. Ackerman, J.D. Dale, W.E. Klaczek, and D.J. Wilson.....	445

CH-09-48	Heat Tolerance Limits for Subjects Exercising in Heavy Clothing T. Jang, H. Cline, K. Pietarila, A. Iyoho, J. Gall, and S.S. Nair.....	464
CH-09-49	How to Simplify Computer Simulated Persons (CSPs) for Modeling Personal Microenvironments: Comparison and Case Studies Wei Yan, Xudong Yang, and Ming Shan	473
CH-09-50	Human Thermal Model with Extremities for Asymmetric Environments Anthony E. Iyoho, Tai Jang, and Satish S. Nair.....	484
CH-09-51	Impact of Pressurization on Energy Consumption for Laboratories and Cleanrooms Jin Wen, Wei Sun, and Stephanie Dost.....	496
CH-09-52	Withdrawn	
CH-09-53	Improving Efficiency in a Campus Chilled Water System Using Exergy Analysis Justin M. Harrell and James A. Mathias	507
CH-09-54	Investigation of Thermal and Airflow Conditions Near Glazed Façades Using Particle Image Velocimetry and CFD Simulation— Eliminating the Need for Secondary Perimeter Heating Systems Athanasios Tzempelikos, Panagiota Karava, Luis Miguel Candanedo, Mark Bessoudo, and Andreas K. Athienitis	523
CH-09-55	Modeling for Predicting Frost Behavior of a Fin-Tube Heat Exchanger with Thermal Contact Resistance H. Shokouhmand, E. Esmaili, A. Veshkini, and Y. Sarabi	538
CH-09-56	Modeling Individual Variations in Thermal Stress Response for Humans in Transient Environments Tai S. Jang, Anthony E. Iyoho, Larry G. Berglund, and Satish S. Nair.....	552
CH-09-57	Optimization of Cooling-Dominated Hybrid Ground-Coupled Heat Pump Systems (RP-1384) Scott Hackel, Gregory Nellis, and Sanford Klein	565
CH-09-58	Performance Augmentation of a Water Chiller System Using Nanofluids M.S. Liu, M.C.C. Lin, J.S. Liaw, R. Hu, and C.C. Wang	581
CH-09-59	Performance Comparison of Conventional and Chilled Ceiling/Displacement Ventilation Systems in Kuwait (RP-1438) Ammar Bahman, Walid Chakroun, Nesreen Ghaddar, Ralph Saade, and Kamel Ghali	587
CH-09-60	Performance Study of an HVAC Counterflow Cooling Tower in a Humid Climate Kamal Abdalla, Fadi Mansour, and Esam Elsarrag	595
CH-09-61	Pressure Relief Device Capacity Determination Douglas T. Reindl and Todd B. Jekel	603
CH-09-62	Stability of Temperature Control in VAV Systems Yuji Yamakawa, Takanori Yamazaki, Kazuyuki Kamimura, and Shigeru Kurosu	613
CH-09-63	Pressure Losses in 12", 14", and 16" Non-Metallic Flexible Ducts with Compression and Sag (RP-1333) Charles Culp and David Cantrill.....	622

CH-09-64	Study on Energy Conservation and Economical Condition of “PEFC Apartment House” Hidemitsu Koyanagi and Hitoshi Hukao	629
CH-09-65	The Integration of Radiant Components to Maintain Occupant Comfort in a Multifunctional Space Peter Simmonds, Patrick Wilkinson, and John Gautrey	637
CH-09-66	Withdrawn	
	Index of Transactions Papers, Volume 115, Part 1	646
