ID 110

---

Question Does ASHRAE publish case studies of high-performing buildings?

---

Answer Yes, ASHRAE publishes a quarterly magazine titled [High Performing Buildings](#) that does just this. The magazine is distributed to building owners, facility managers, architects, contractors and engineers. The stated mission is to help decision makers in the building community learn about the benefits of innovative technologies and energy-efficient design and operation. The magazine aims to accomplish this goal by highlighting case studies of exemplary buildings, developed through the support of leading practitioners in the sustainability movement. This magazine is available in digital form at no cost at [www.hpbmagazine.org](http://www.hpbmagazine.org).

You may wish to perform a keyword search at the ASHRAE website ([www.ashrae.org](http://www.ashrae.org)) to locate ASHRAE publications that include such case studies. This searches all technical papers and proceedings from ASHRAE Meetings and Conferences, magazine articles, handbook chapters, standards, and other literature published by or available through ASHRAE.
