

## ASHRAE Technical FAQ

---

ID 27

---

Question I don't know which listing to use in [ASHRAE Standard 62.1-2016](#) Table 6-1 for a space in the building that I am designing. Can ASHRAE tell me which listing to use?

---

Answer ASHRAE does not define the characteristics of the space types listed in Table 6-1 of [ASHRAE Standard 62.1-2016](#), "Ventilation for Acceptable Indoor Air Quality" leaving that to the judgment of the practitioner and/or authority having enforcement jurisdiction. However, if there is an ambiguity in the standard that makes judgment difficult, you can get an official interpretation from the committee. To do this, send your question, in detail and in writing, to the [Manager of Standards](#), ASHRAE, Inc., 1791 Tullie Circle, N.E., Atlanta, GA 30329, and it will be forwarded to the Interpretation Committee for action at their next meeting.

Copies of the standard and the latest addenda may be purchased and downloaded on-line at our website, [www.ashrae.org/](http://www.ashrae.org/) or by calling 1-800-527-4723 in the USA and Canada or 1-404-636-8400 worldwide. Addenda to the standards may be downloaded for free.
