

## ASHRAE Technical FAQ

---

ID 83

---

Question How do I prove proper air pressure relationships in a health care facility?

---

The [2015 ASHRAE Handbook – HVAC Applications](#), Chapter [A38](#) and [ASHRAE Standard 111-2008](#) provide information on test and balance procedures. If pressure relationships are critical, it might be appropriate to have a recognized test and balance professional make the necessary determinations.

[HVAC Design Manual for Hospitals and Clinics](#)

[ASHRAE Standard 170-2013](#) – Ventilation of Healthcare Facilities

Answer

Additional Sources of Information are:

[NEBB](#) - National Environmental Balancing Bureau - [www.nebb.org](http://www.nebb.org)

[AABC](#)- Associated Air Balance Council - [www.aabchq.com](http://www.aabchq.com)

The handbook and standard may be purchased and/or individual chapters of the handbook may be purchased and downloaded on-line at our website, [www.ashrae.org](http://www.ashrae.org) or by calling 1-800-527-4723 in the USA and Canada or 1-404-636-8400 worldwide.
