

ASHRAE Technical FAQ

ID 03

Question Where can I find a consultant for my project?

By policy, ASHRAE is non-commercial, and cannot recommend providers of services or products. The ASHRAE website, www.ashrae.org does carry paid and free advertisements that include HVAC and environmental consultants in our Product & Services Directory, <http://cms.ashrae.biz/psd/ashrae.php>.

Answer The National Society of Professional Engineers ([NSPE](http://www.nspe.org)) website at www.nspe.org is another source for locating engineering firms or individuals in a particular State.

The American Consulting Engineers Council ([ACEC](http://www.acec.org)) provides a member directory of independent, private practice engineering companies. They can be reached at www.acec.org.

The telephone book yellow pages lists professional engineers by area of specialty under "ENGINEER".

ASHRAE Pubs [ASHRAE Journal](#)

Topic References consultant, referral, engineer, designer, expert witness, forensic, PE, CIH
