

ASHRAE Technical FAQ

ID 05

Question What are the size and characteristics of the HVAC market for my product?

Answer ASHRAE is a technical society, and as such focuses on technology. ASHRAE does not have information on the HVAC market. The Air-conditioning, Heating, and Refrigeration Institute (AHRI – www.ahrinet.org) does have some information on the HVAC market.

U.S. Department of Commerce (US DOC - www.commerce.gov), may also be source for this type of information.
