

# 125 Years of Expertise

## What can ASHRAE do for you?

ASHRAE is a technical society with more than 56,000 members in over 130 countries around the world. Members include engineers, architects, educators, and other industry professionals, passionate about the built environment. The Society and its members serve as a leading source of expertise for government in the development of legislation, regulations, and policy affecting the built environment and its impacts on the public.

### Advise and Assist

ASHRAE engineers have the expertise to advise on a variety of topics including building systems, energy efficiency, indoor air quality, refrigeration and sustainability.

### Support Research

ASHRAE's research program currently supports more than 60 active research projects.

### Educate and Train

With publications, courses (including eLearning), and professional certification programs, ASHRAE provides value to thousands of built-environment professionals, employers, and building owners.

# Voluntary Consensus Standards

ASHRAE has more than 200 standards and guidelines that establish recommended design and operation practices. Some of our ANSI-accredited standards include:

ANSI/ASHRAE Standard 55-2013

## **Thermal Environmental Conditions for Human Occupancy**

ANSI/ASHRAE Standard 62.1-2016 & 62.2-2016

## **Ventilation for Acceptable Indoor Air Quality (Commercial and Residential)**

ANSI/ASHRAE Standard 90.1-2016

## **Energy Standard for Buildings Except Low-Rise Residential Buildings**

ANSI/ASHRAE Standard 90.2-2018

## **Energy-Efficient Design of Low-Rise Residential Buildings**

ANSI/ASHRAE/IES Standard 100-2018

## **Energy Efficiency in Existing Buildings**

ANSI/ASHRAE Standard 188-2018

## **Legionellosis: Risk Management for Building Water Systems**

## **2018 International Green Construction Code (IgCC)**

### **Powered by ASHRAE 189.1**

ANSI/ASHRAE/ICC/USGBC/IES
