5. Revisions to the Reference Manual

Cindy Michaels and Sarah Foster presented revisions to the Reference Manual. They recommended that further revisions need to be made and it might be easier to do it in a document without track changes.

Hugh McMillan III asked the committee if they had questions for Cindy Michaels and Sarah Foster. At this time, they did not so Hugh requested that the committee review the revisions so that they can discuss them at the Virtual Annual Conference meeting (Action Item #1).
6. Revisions to Publications Request Form

Cindy Michaels presented her suggested revisions to the Publications Request Form. She asked the committee for feedback or discussion.

Hugh McMillan III said that he thought the changes were good. No other comments were forthcoming. Therefore, was moved and seconded to approve the revisions to the Publications Request Form.

(MOTION #2):

Motion: To approve the revisions to the Publications Request Form made by Cindy Michaels.

MOTION #2 PASSED with a voice vote (no no votes, no abstentions).

7. Suggestions for ASHRAE Journal Topics

Hugh McMillan III said that some of the members have sent requests to the TCs to request ideas. He asked the committee members to follow up with the TCs before the Virtual Annual Conference. (Action Item #2). Geraldo Alfonso said he has received some feedback and will follow up.

8. Strategic Planning

Hugh McMillan III said he reviewed the four initiative areas of the Strategic Plan to ensure that the MBO items were categorized according to those initiative areas. Most of the MBO items fell under number 3, which is organizational streamlining.

Hugh McMillan III said that the Strategic Plan is a living document and the committee needs to be mindful that they always need to be working toward those initiative areas.

9. Old Business

Cindy Michaels said that RAC is adding PTAR #1 to its spring meeting. She plans to ask about the outcome of that meeting.

10. New Business

10.1 PTAR #2 Cindy Michaels said PTAR #2 is "Investigation into Sensible Temperatures for Potable Hot Water Temperatures to Maximize Public Safety, Water and Energy Conservation". TC 3.6 needs to vote on it and submit to RAC by May 15. Cindy Michaels plans to follow up after that date.

Hugh McMillan III said that PTAR #2 will be under the new PTAR subcommittee chair.

Cindy Michaels thanked the chair for the new organization for handling PTARs.

10.2 Application Guides Regarding the Application Guides, Hugh McMillan III told the committee that leadership of Publishing Education Council has said that the topics need to be related to particular HVAC systems. They suggested that the first topic should be fan-powered boxes. The initial work is to be done by the Training and Education committee. However, a publication may emerge from that work.

Moving forward Hugh McMillan said that the Application Guides subcommittee should archive their work because it may likely be needed again.
Timothy Wentz said that he thinks that the new approach to the Application Guides is the right way forward and encouraged the committee to stay involved as decisions are made about how to create the guides.

Cindy asked the chair if the committee should share its work with the Training and Education committee. Hugh McMillan III agreed that sharing with that committee and Mark Owen could be helpful.

The chair thanked everyone on the committee who has worked on the guides.

Geraldo Alphonso said in Colombia that he had meetings with his customers one or two times a year to share information about ASHRAE. He said that everyone in ASHRAE has something to share and encouraged everyone to share what they know. He suggested that that information could be shared with others through social media. He has been sharing information in his own country in Spanish, which he thinks is helpful.

Hugh McMillan III said that perhaps an electronic document could be developed along those lines.

Kay Thrasher asked if the change in strategy for the Application Guides was due to financial reasons.

Hugh Millan III said that he didn't hear anything about the change in strategy being attributed to financial reasons. He suggested that this concern could be brought up to PEC with a reminder about the original intent of the project.

11. Adjournment

Hugh McMillan III adjourned the meeting at 10:34 a.m. EST.

Respectfully submitted,
Staff Liaison to Publications Committee
