IX. Adjournment - 10:30am (Shona)

ATTACHMENT A

YEA/YAF Update:
Meeting with Staff on Monday (1/10/22). This was an initial meeting to introduce each other and start the discussions. YAF is also trying to outreach to other professional organizations and staff members for ASHRAE and AIA are in constant communication. They actually had already been discussing interest in collaboration efforts between YEA and YAF and have brief summaries in the MOU and Work Plan for the ASHRAE/AIA partnership.

For those who don't know, AIA operates quite differently from ASHRAE in staff/volunteer responsibilities. So that's why we are mostly going to be communicating with their staff members, and their volunteers will not be as hands on in the efforts.

Their Advisory Committee is elected; regional/local members are appointed locally; Advisory Committee meets monthly; full committee meets bi-monthly - the YAF representative suggested our YEA representative(s) could participate in a few of the Advisory Committee meetings where they focus on collaboration efforts with allied organizations or full committee meetings depending on what we are trying to achieve.

I did provide our YEA/YEN partnership description as an example and starting point. There was also talk of potentially joining YEA, YEN, and YAF for something if there is interest there.

It is also worth noting there are 2 young professional groups within AIA: "Emerging Professionals (EP) are professionals who have completed their academic studies up to the point of licensure or up to 10 years after completion of their academic studies."

The Young Architects Forum addresses issues of particular importance to recently licensed architects, providing resources on leadership, mentorship and fellowship useful to those launching their careers.

I know there's been talk of potentially changing the YEA age requirements or reframing it to encompass those who are beyond the age limit but still new to the profession for various reasons. I think it would be helpful to have a representative from YAF to join our conversation and share the highs and lows of how they are structured. If anything, it would probably be beneficial to not necessarily modify YEA, but add a group that includes those who are new to our industry that don't fall under the 35 and under category. I know there is a need for that, and I can imagine it must be very isolating for someone who is older than 35, either switching careers or spent many years in academia and doesn't really feel like they fit in with
those in their 20s, but also doesn't feel like they fit in with the more senior engineers. So that's something worth discussing more.

We also discussed the possibility of having some resources for us to send down to our chapter chairs in both YEA and YAF to help initiate the collaboration at the chapter levels. Whether it's an example of successful chapter joint events - I know my chapter held one with AIA (Emerging Professionals & YAF), YEA, IIDA, IES, and IEEE that was quite successful, and I know there are other chapters doing the same thing. Sometimes it can be overwhelming for a chapter chair and it's good to have a starting point. Maybe also ensure there are PAOE pts for joint events between YEA and YAF or EP or others.

Memorandum of Understanding (MOU):

YOUNG PROFESSIONALS DEVELOPMENT
ASHRAE and AIA agree to connect the leaders of the Young Engineers in ASHRAE *YEA) and Young Architects Forum (YAF) to explore joint activities that can help optimize collaboration between engineers and architects early in career development.

2020-2021 Work Plan:

YOUNG PROFESSIONALS DEVELOPMENT
As appropriate, ASHRAE and AIA will connect YEA and YAF, encouraging them to propose one or more joint activities, such as a seminar, panel discussion, or other presentation targeting young building design professionals or a co-sponsored and co-hosted YEA-YAF event. A project plan will be created and approved by both organizations for each activity or even that has financial implications.
