

DO YOU EVEN NETWORK? LEARN HOW TO WORK THE ROOM.

You walk into a room full of extraordinary people with extraordinary opportunities, yet you walk out of that room without learning or gaining much. So, unfortunate. The world is full of great people, and getting to know them can open doors which you can't even imagine. It's time to break out of your shell and live an extraordinary life. Work the room and unleash the power of networking. Change your life.

OCTOBER 11, 2023

12:30-1:30PM EST

Abhishek Khurana is a Building Automation Contractor based in Toronto, Canada. Having grown up in both India and Canada, Abhi's ability to understand and appreciate multiple perspectives has enabled him to communicate effectively with people from diverse backgrounds and find innovative solutions to complex challenges.

Abhi is a distinguished lecturer in the field of HVAC automation. He holds a degree in Mechatronics Engineering and Control Systems from McMaster University. He worked as an Account Executive for Trane Technologies, where he honed his skills in designing and executing HVAC Control solutions. Abhi then started Voyager Buildings, a firm that provides turnkey Building Automation and Artificial Intelligence solutions.
