

# PDH CERTIFICATES FOR THE 2020 ASHRAE VIRTUAL CONFERENCE

Start by log into the ASHRAE 2020 Virtual Conference environment by clicking link included in your confirmation email and entering the email address you used to register for the conference. Contact [meetings@ashrae.org](mailto:meetings@ashrae.org) if you need the virtual conference link resent to you.

## ON DEMAND SESSIONS

Once logged into the Virtual Conference environment, with your mouse, hover over the “On-Demand” tab at the top of your screen. Then click on “Access PDHs”.

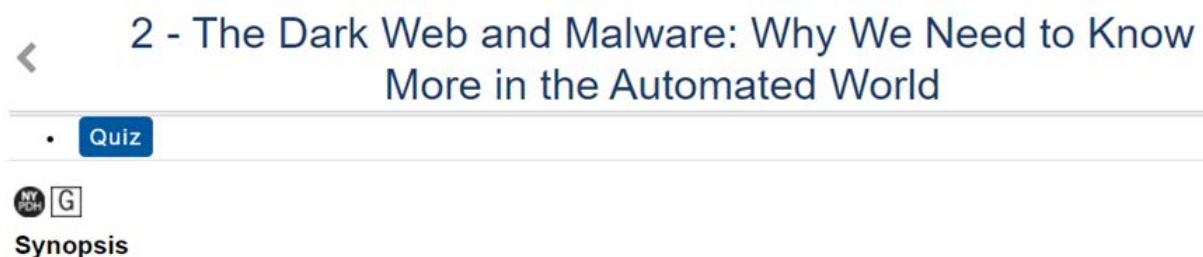

Then follow the directions under the PDH Quizzes and Certificates section. Remember, you must be signed in to see the quiz button.

### PDH Quizzes and Certificates

**New Registrants:** Allow 24 hours for your registration to become active and acquire full access to meeting content upon Sign In.

To obtain a PDH certificate for a session, first view all of the presentations in the session. Then, click on the Quiz button located at the top of the session page to access the quiz – 10 questions and answers in true/false, yes/no format. You will receive access to the PDH certificate when correctly answering eight or more questions.

The Quiz button can be found under the session title:

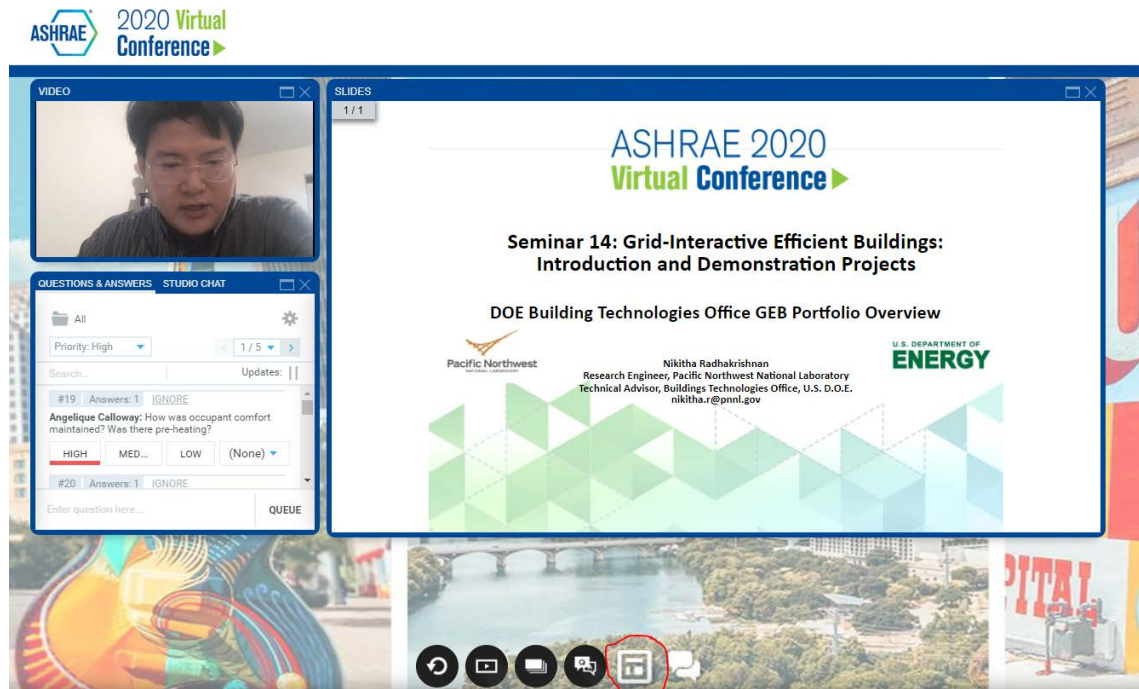

If you have any issues or questions, please contact [meetings@ashrae.org](mailto:meetings@ashrae.org).

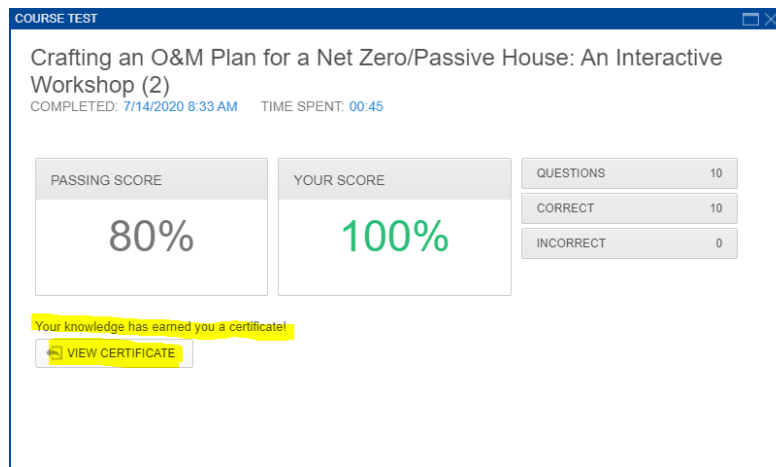

## LIVE SESSIONS NOW AVAILABLE TO WATCH ON-DEMAND

The sessions that were presented live during the 2020 ASHRAE Virtual Conference are now available to watch on-demand in the Theater section of the Virtual Conference Environment.

When you watch a **seminar** that was presented live, at the conclusion of the recording you will see a quiz icon at the bottom of your screen. Click that icon to take the quiz related to the content in the session.

You must score an 80% or better on the quiz to earn your PDH certificate. Upon completion of the quiz with a passing score you will be prompted to download a copy of your PDH certificate.

**PDH Certificates are available for the following Live Sessions:**

- Grid-Interactive Efficient Buildings: Introduction and Demonstration Projects
- SARS, MERS, Ebola, COVID-19: How to Prepare for the Next Epidemic
- Crafting an O&M Plan for a Net Zero/Passive House: An Interactive Workshop
- ASHRAE's Latest Guides to Zero Energy Design
- Off-Site Construction for Resilient Buildings: Getting the Details Right
