XIV

**INTERNATIONAL HVAC+SANITARY
TECHNOLOGIES SYMPOSIUM**

1-3 APRIL 2020 ISTANBUL

Symposium Main Theme:

**RESILIENT HVAC SOLUTIONS TO ACHIEVE MORE
SUSTAINABLE FUTURE**

Symposium Topics:

1. Microclimate and building interactions.
 2. Outdoor and indoor environmental quality.
 3. High energy efficient building design, considering climate.
 4. High efficiency system design approaches. Successful examples.
 5. Resilient HVAC equipment and system solutions.
 6. Renewable energy using innovative approaches.
 7. Modeling tools and simulation
 8. Smart systems
 9. Solar Decathlon competitions.

INTERNATIONAL HVAC + SANITARY TECHNOLOGIES SYMPOSIUM

1-3 APRIL 2020 ISTANBUL

Important Dates:

Abstract Submission Deadline 15 Jan. 2020

Abstract Acceptance Notification 22 Jan. 2020

Submission of Full Papers 15 Feb. 2020

Paper Acceptance Notification 02 March 2020

Invitation Letter by the Symposium Chair

The 14th International HVAC&R Technology Symposium of TTMD will be held in Istanbul between the dates April 1-3, 2020 with the collaboration of "Universities / Industry / Public Agencies and Institutions / Non-Governmental Organizations". The symposium comprises of an international conference and an exhibition that is related to science and technology about the innovative technologies and practices within the realm of HVAC, which is gradually becoming more significant.

The main theme of the 14th International HVAC&R Technology Symposium of TTMD which is being held biannually, will be **"Resilient HVAC Solutions to achieve more Sustainable Future"**. The symposium will cover all aspects of new generation HVAC technology and focus on the design, construction and maintenance of efficient systems by applying the latest research and technical innovations into practice towards a sustainable, efficient, eco-friendly and digitalizing future.
