

AN INVITATION TO SPONSOR

2020 Virtual Building Performance Analysis Conference and SimBuild
Co-Sponsored by ASHRAE & IBPSA-USA
September 29 – October 1, 2020

The 2020 Building Performance Analysis Conference scheduled for August has transitioned to a complete virtual conference that will take place September 29 - October 1, 2020.

The focus of the 2020 BPACS Conference will be to improve the decision-making process through the application of simulation and modeling over the entire building life cycle, from the earliest concept through operation and maintenance to achieve the goals of zero energy, zero carbon, or other high-performance targets. The conference brings together the building energy analysis and performance simulation community for three days of discussions, seminars, and short courses. Practitioners, vendors, researchers, utility and government officials, and owners will address the practices of energy modeling and building performance simulation using existing simulation tools, software development, and future simulation research and applications.

The anticipated conference program consists of Keynote Speakers, Invited Speakers, a Call for Papers, a Call for Presentations and the sixth ASHRAE LowDown Showdown.

The conference organizers are pleased to offer sponsorship opportunities to engage industry participation. The sponsorship offsets conferences expenses and provides access to seasoned practitioners and principals responsible for managing modeling services.

All sponsors will have their company logo and name on the conference web site and recognition during the virtual conference. A summary of benefits is provided below.
