About Developing Economies Conference 2023

This is the 3rd edition of its successful format of Developing Economies Conference by ASHRAE.

The conference theme is “Decarbonizing and Sustaining Growth of Healthcare and Residential Infrastructure in Emerging and Future Markets.”

The conference shall focus on aspects relating to Resiliency, IEQ, Decarbonization, Policies, Digitalization and other tracks. The conference will also address challenges like rapidly growing energy demand, epidemic effects, fast-paced advancements, urbanization, sustainability and the role to be played by the Global HVAC&R industry to meet the decarbonization targets set during CoP 26.

The Conference would be attended by 250 to 300 Delegates on each day from India as well as other developing countries.

Message from ASHRAE President

Greetings!

On behalf of ASHRAE and its board of directors, it is my pleasure to invite you to attend the Developing Economies Conference 2023. I'd like to commend ASHRAE's Mumbai Chapter for hosting this valuable event.

Whether we are facing resiliency challenges, critical health threats, expanding medical and technical requirements, food preservation or the impacts of climate change, the global HVAC&R community must evolve and change to meet the needs of the world we live in. We are called to drive innovation and create HVAC&R solutions that not only sustain our environment, but in many ways repair the human impact that our demands have placed on our natural resources.

More than ever before, emerging economies are investing in building solutions to help achieve better development outcomes, by strengthening healthcare infrastructure and securing sustainable homes for their growing populations.

The Developing Economies Conference will consist of speakers and presentations focused on decarbonization, IEQ, policies, codes and standards, among other important topics. This conference will offer presentations on transformative practices and technologies that can be implemented on a wide scale to optimize the health and well-being of all building occupants.

As I shared in my address on ASHRAE's current Society theme, "Securing Our Future," we are experiencing a time of accelerated change and an era of unpredictability that is unlikely to go away any time soon.

The future does not belong to those who sit and watch. A meaningful and powerful future will not come to us...we must collectively seek it...create it...SECURE it. And that's what we'll do through this conference.

Thank you for being a part of solution!

Sincerely,

Farooq Mehboob

Fellow Life Member ASHRAE
2022-23 ASHRAE President

Message from Chairman

“The reach is enhanced to include entire Global South economies as they face similar challenges in expanding infrastructure in cost effective manner,” said Ashish Rakheja, conference chair. “Post-COVID, the importance of healthcare and the current pressing environment needs of carbon footprint reduction are the focus area for 2023 conference. The last two editions have demonstrated the benefit of this Conference wherein it offers a two-way learning street for both Developed and Emerging economies and provides an opportunity to the global HVAC&R community to come together to network, learn and evolve their offerings in making the world a better place,” he said. The conference will have keynotes, presentations and panel discussions on current topics and technology demonstration

Message from ASHRAE Mumbai President

It gives me great pleasure to invite you to a mega conference where brilliant minds from India and around the world will convene. The ASHRAE Mumbai Chapter and volunteers from other chapters in the Region at Large along with ASHRAE staff are hard at work to make this event a success.

The 10th and 11th of May 2023 will be replete with parallel sessions on the theme. We will also have an exhibit of products and catalogues from various companies in the related industry. The networking dinners will also provide an opportunity to reconnect with the conference's speakers, distinguished guests and delegates.

I am confident that this conference will yield several academic and business takeaways. The host committee is excited.

Message from Convener

Developing Economies Conference 2023, is an in-person event with the theme of “Decarbonizing & Sustainable Growth of HealthCare & Residential sectors”. It will be ASHRAE's most comprehensive event dedicated to net zero energy, de-carbonization, and climate resilience which will provide Synergistic Zero Carbon Learning Opportunities in Built Environment. The event includes inspiring keynotes from Experts, Industry leaders, trends and emerging technologies, an interactive Expo Hall featuring leading companies & professional networking opportunities.

Looking forward to meet you all at the event.

About India

Welcome to Incredible India - a land of remarkable diversity that will ignite your curiosity, shake your senses and warm your soul! A country where the people live by the principle 'Atithi Devo Bhava' that translates to 'Guest is God'. With assorted cultures, beautiful landscapes and a dense population of more than a billion people, India exemplifies 'Unity in Diversity'.

From ancient traditions and artistic heritage to magnificent landscapes and culinary creations, this land of ancient civilization treasures some of the world's best remnants. With 38 UNESCO World Heritage Sites, India ranks at the 6th position in the world. Here, you can get onto an epic journey where you can delve into spirituality, leisure, adventure, and luxury.

From soaking up the sights of the sprawling & wonderfully diverse Delhi to exploring the UNESCO World Heritage City of Jaipur, touring the Golden Triangle Circuit of India to discovering the beautiful backwaters of Kerala, gazing in wonder at the grandeur of the Taj Mahal to experiencing the 'madness and magic' of Mumbai – the city that never sleeps, India offers a vast range of experiences, guaranteed to leave an indelible mark on you.

India is also a paradise for foodies. Indulge yourself in one of the finest culinary trips of your lifetime. The Indian cuisine is amongst one of the most popular cuisines in the world. The most famous are the Indian curries which are a complex amalgamation of spices or herbs, usually including fresh or dried hot chillies. The cuisine in India is a unique assortment of regionally distinct food creations, with each place having its own traditional preparation techniques & styles.

India is easily counted amongst those nations that have a sound network of railways, airways, roadways, ports, and inland water transport. And while talking about transport connectivity, the discussion is incomplete without the mention of the metro system, that is the lifeline of the capital city of Delhi.

Come & experience the mesmerizing and magical India!

About Maharashtra

A culturally vibrant state basking in the glory of rich history, Maharashtra is the pride of India. Fondly called the Land of Warriors, Maratha rulers left behind grandeur and verve that enriches the cultural heritage of the state. Diversity comes naturally in this third-largest state by area and second most populated state in India. It is divided into small regions and each region is diverse in the form of dialects, folk songs, food, ethnicity.

Maharashtra is known for its purogami culture (forward culture). 'Maha' means big and 'Rashtra' means nation. Maharashtra is indeed 'Maha' in its size, population and culture. Its unique customs and practices are rooted in myriad traditions and art forms which have been preserved over the centuries.

Maharashtra is a melting pot where people from different races and traditions class co-exist. Be it the engaging traditions of Waghya Murali, Potraj, Vasudev, and Gondhali communities, tribal communities such as Bhils, Mahadeo, Kolis, Gonds, and Warlis; or the Hindus, Muslims Jews, Buddhists, Zoroastrians (Parsis and Iranians) and Christians.

From diverse culture comes the diverse cuisine. The mildly spicy cuisine of Maharashtra is delectable and has a distinctive flavor. From subtly flavored vegetarian delicacies to hot aromatic meat and fish curries, Maharashtrian cuisine is immensely popular. Sweet savories are usually prepared from rice and jaggery. Pithla Bhakri, Sol Kadhi, Bharli Vangi are some of the traditional dishes from Maharashtrian households, while Misal Pav, Ragda Pattice are a few must have street foods. .Modak, Puran Poli, Shrikhand, Amrakhand are some of the famous sweet servings that are subtle and mild in taste.

Any description of Maharashtra is incomplete without Bollywood- the Hindi Film Industry. While Tamasha is the most popular form of folk theatre, Koli dance is performed by the fishermen community. Vivacious folk and traditional dance forms and music represent the vibrant Marathi culture, Lavani being the traditional dance form.

Maharashtra situated in the western part of the country - the Deccan. The capital of Maharashtra is Mumbai which is also known as the financial capital of India.

About Host City - Mumbai

Mumbai is the financial and commercial capital of the country. It is also synonymous with Bollywood, India's largest film industry and one of the biggest movie machines on earth. Often referred to as 'mayanagari' (city of dreams) it is a melting pot of many communities and cultures making it truly, the most cosmopolitan city in India.

Imagine tropical sunshine, swaying palm trees, lapping waves contrasted with an architectural legacy spanning two millennia. From the meditation caves of the 1st century BC, through 5th-century Hindu temples and the imperialist fantasies of the Raj, to a distinctive ensemble of Victorian and Art Deco (largest collection of Art Deco buildings outside of the United States) buildings to the futuristic glass towers soaring skywards above the streets of Mumbai. That is Mumbai for you.

If you have a good appetite and would love to try different types of food then Mumbai is the place for you. Whether it is local cuisine or global, high end eatery or something affordable you will find something to suit your taste and pocket. Talking of food, one cannot miss out on its legendary street food which was born out of necessity for the mill workers of Mumbai which has a lot of variety from 'chaat' to 'bhelpuri' to the famous 'vada-pav' or the Indian veg burger.

After work social life in Mumbai can compete with world's biggest and best party capitals. Based on your choice of music, taste and pocket you have everything from low-cost drinking holes and dimly-lit lounges, to exclusive dance clubs and elegant bars. In short something for everyone.

About ASHRAE

Founded in 1894, ASHRAE is a global professional society committed to serve humanity by advancing the arts and sciences of heating ventilation, air conditioning, refrigeration and their allied fields.

As an industry leader in **research, standards writing, publishing, certification** and **continuing education**, ASHRAE and its members are dedicated to promoting a healthy and sustainable built environment for all, through strategic partnerships with organizations in the HVAC&R community and across related industries.

The Society is showcasing integrated building solutions and sustainability in action through the opening of the **ASHRAE Global Headquarters** building in metro-Atlanta, Georgia. The state-of-the-art, high-performing net-zero-energy efficient global headquarters building is a destination venue for industry representatives, visiting from around the world, who are looking to experience cutting-edge engineering and architectural interventions.
