ASHRAE RP 2024–25 CAMPAIGN RESULTS

What an incredible year...

What an incredible year for ASHRAE's Research Promotion (RP) Campaign! Serving as RP Chair during a record-setting Society year has been both humbling and inspiring. After more than a decade of involvement with RP at both the chapter and Society level, I am thrilled to see firsthand the extraordinary generosity and commitment of our members, volunteers, and corporate partners.

Thanks to the tireless work of more than 200 RP volunteers and the dedication of thousands of donors, we achieved something historic: the RP Campaign surpassed \$2.8 million for the first time in ASHRAE history! This achievement speaks volumes about the strength of our community and the value we all place in advancing ASHRAE's mission.

Highlights of this record-breaking year include:

- **Over \$2.8 million raised, with the majority supporting groundbreaking technical research.**
- **More than 3,000 individual gifts from members, organizations, and associations.**
- **Strong support for scholarships and YEA programs, building the pipeline of future leaders.**
- **Sustained growth in the ASHRAE Foundation, ensuring that our Society has the long-term resources to continue this vital work.**
- **Major commitments from industry partners, including companies like Fortis BC Energy, Daikin, Trane, AAON, McMillan James, and Western Mechanical Solutions, whose financial leadership amplifies the impact of this campaign.**

To every volunteer, chapter, member, and donor: Thank you. Your passion and generosity are the driving forces behind ASHRAE's success. You have proven that when we come together, we can set new records and expand our reach in ways once thought impossible.

The names listed in the pages that follow represent the more than 2,000 individuals and organizations who gave generously during the 2024–25 fiscal year. In addition, we recognize the many others whose gifts, though not listed here due to space, are equally vital to this achievement. Every single contribution matters, and every single donor helps move our industry forward.

As we look ahead to the 2025–26 campaign, we do so with confidence and momentum. Together, we will continue building on this legacy of giving, ensuring that ASHRAE remains a global leader in research, education, and innovation.

With deepest gratitude,

Les Pereira

Many contributions are received by ASHRAE to honor deceased members, business associates and friends. These contributions not only honor these members and associates, but they also support the Society's mission to advance the arts and sciences of the HVAC&R industry. Those being honored are listed in bold type and the memorial contributors are listed below each honoree.
