## PUBLIC REVIEW-CALL FOR COMMENTS

Constructive comments are invited for the following Public Review Drafts, which can be accessed on ASHRAE's website at <https://www.ashrae.org/technical-resources/standards-and-guidelines/public-review-drafts>. All activity for reviewing and commenting on public review drafts can be accomplished completely online.

**30-day Public Review from  
April 17, 2026 to May 17, 2026**

♦ **First Public Review of BSR/ASHRAE Addendum *c* to ANSI/ASHRAE Standard 62.2- 2025, *Ventilation and Acceptable Indoor Air Quality in Residential Buildings***

This addendum clarifies that integrated diagnostic equipment may be used to measure airflows of dwelling unit ventilation systems as well as local exhaust systems. The measurement is to be made in accordance with manufacturer instructions.

♦ **First Public Review of BSR/ASHRAE Addendum *d* to ANSI/ASHRAE Standard 62.2- 2025, *Ventilation and Acceptable Indoor Air Quality in Residential Buildings***

The addendum removes the exemption for attached dwelling units. The exception for attached dwelling units that was added in the standard was not supported by indoor air quality data.

♦ **First Public Review of BSR/ASHRAE Addendum *l* to ANSI/ASHRAE Standard 15-2024 , *Safety Standard for Refrigeration Systems***

This addendum adds a new section 7.9 which delineates what is or is not a potential source of ignition and updates are made to Sections 7.6.2.5(f), 7.6.3.2, and 8.11.6.2(d).

♦ **First Public Review of BSR/ASHRAE Addendum *l* to ANSI/ASHRAE Standard 34-2024, *Designation and Safety Classification of Refrigerants***

This addendum adds the zeotropic refrigerant blend R-4104A to Tables 4-2 and D-2.

♦ **First Public Review of BSR/ASHRAE Addendum *m* to ANSI/ASHRAE Standard 34-2024, *Designation and Safety Classification of Refrigerants***

This addendum adds the zeotropic refrigerant blend R-4105A to Tables 4-2 and D-2.

♦ **First Public Review of BSR/ASHRAE Addendum *n* to ANSI/ASHRAE Standard 34-2024, *Designation and Safety Classification of Refrigerants***

This addendum adds the zeotropic refrigerant blend R-4106A to Tables 4-2 and D-2.

## STANDARDS ACTIONS

### PUBLIC REVIEW-CALL FOR COMMENTS

Constructive comments are invited for the following Public Review Drafts, which can be accessed on ASHRAE's website at <https://www.ashrae.org/technical-resources/standards-and-guidelines/public-review-drafts>. All activity for reviewing and commenting on public review drafts can be accomplished completely online.

**30-day Public Review from  
April 17, 2026 to May 17, 2026**

- ♦ **First Public Review of BSR/ASHRAE Addendum *o* to ANSI/ASHRAE Standard 34-2024, *Designation and Safety Classification of Refrigerants***

This addendum clarifies the definitions of WCF and WCFF.

**45-day Public Review from  
April 17, 2026 to June 1, 2026**

- ♦ **First Public Review of BSR/ASHRAE Addendum *d* to ANSI/ASHRAE Standard 140-2023, *Method of Test for Evaluating Building Performance Simulation Software***

This addendum adds acceptance criteria for the building thermal fabric empirical validation tests of Section 13. The criteria apply to reported hourly heater energy consumption time-series results for the best-steady-state period for a given test case, included in the standard output reports for Section 13.

- ♦ **First Public Review of BSR/ASHRAE Addendum *a* to ANSI/ASHRAE Standard 185.2-2020, *Method of Testing Ultraviolet Lamps for Use in HVAC&R Units or Air Ducts to Inactivate Microorganisms on Irradiated Surfaces***

This addendum updates the definitions section for continuity across other ASHRAE UV-C related standards and guidelines, redefines the Rig/Duct requirements to a performance-based qualification process making the standard less prescriptive to allow for larger/longer device/source testing, clarifies intensity measurement locations, updates location and layout diagrams, and makes minor editorial changes to the published standard ANSI/ASHRAE Standard 185.2-2020. This addendum also better defines the minimum requirements for reporting the test results and includes a sample data collection sheet in Informative Appendix D.

- ♦ **Second Public Review of BSR/ASHRAE Standard 86-2013R, *Methods of Testing the Floc Point of Refrigeration Grade Oils***

This standard describes a standard test method for measuring the floc point (waxing tendency) of refrigeration-grade oils.

### CALL FOR MEMBERS

A *Call for Members* is announced for the following PCs. Persons who are interested in serving on these ASHRAE committees are asked to indicate their interest by completing the online membership application forms listed under Instructions for New Applicants at <https://www.ashrae.org/pcmmemberapp> or by contacting Ryan Shanley at: ASHRAE, 180 Technology Parkway, Peachtree Corners, GA 30092; phone: 678-539-1138; fax: 678-539-2138; email

[Standards.Section@ashrae.org](mailto:Standards.Section@ashrae.org).

#### ♦ **SSPC 90.1, *Energy Standard for Sites and Buildings Except Low-Rise Residential Buildings***

**Purpose:** To establish the minimum energy efficiency requirements of buildings other than low-rise residential buildings, and sites for design, construction, and a plan for operation and maintenance; and utilization of on-site renewable energy resources.

**Scope:** This standard provides minimum energy-efficient requirements for the design and construction, and a plan for operation and maintenance of new buildings and their systems, new portions of buildings and their systems, new systems and equipment specifically identified in this standard that are part of a site, new systems and equipment in existing buildings, and new equipment or building systems specifically identified in this standard that are part of process applications, criteria for controlling systems in the building or on the site that modify energy usage based on communication with energy suppliers to facilitate the use of low-emissions energy sources, and criteria for determining compliance with these requirements.

**Note:** *Applications are being sought for the following interest categories:*

**User Consumer:** User-Consumer is defined as users of buildings and building systems and subsystems. A person in this category would make their living from owning or operating buildings.

Example: members of this category would be building owners and operators (private and governmental), tenants, and trade associations or organizations representing these groups.

## INTERIM MEETINGS

## ERRATA

A complete listing of project committee interim meetings is provided on ASHRAE's website at:

<https://www.ashrae.org/technical-resources/standards-and-guidelines/project-committee-interim-meetings>

- ♦ **SGPC 44, *Protecting Building Occupants from Smoke During Wildfire and Prescribed Burn Events***, SGPC 44 will hold a virtual meeting on May 6, 2026 from 2:30 PM to 4:00PM EDT.

For contact information, please contact the Chair, Steven Emmerich ([steven.emmerich@nist.gov](mailto:steven.emmerich@nist.gov)).

- ♦ **SSPC 62.2, *Ventilation and Acceptable Indoor Air Quality in Residential Buildings***, The Envelope Subcommittee of SSPC 62.2, *Ventilation and Acceptable Indoor Air Quality in Residential Buildings*, will hold a virtual meeting on Thursday, May 7th from 11:30 AM – 1:00 PM EDT.

For additional information contact Paul Francisco, Chair of the Envelope Subcommittee of SSPC 62.2, ([pfrancisco@ccrpc.org](mailto:pfrancisco@ccrpc.org)).

- ♦ **SSPC 100, *Energy and Emissions Building Performance Standard for Existing Buildings***, SSPC 100 will hold a virtual meeting on Monday, April 27th, 2026, from 3:00 PM to 5:00 PM EDT.

For additional information, please contact Wayne Stoppelmoor, Chair of SSPC 100 ([wayne.stoppelmoor@se.com](mailto:wayne.stoppelmoor@se.com)).

A new errata sheet for the following standard is now available on the ASHRAE website at

<http://www.ashrae.org/standards-errata>.

- ♦ **ANSI/ASHRAE Standard 170-2025, *Ventilation of Health Care Facilities*** dated April 14, 2026
