NEW PROJECTS—CALL FOR COMMENTS

Constructive comments are invited on the Title, Purpose, and Scope (TPS) for the following newly approved projects. TPSs for public comment can be accessed by going to ASHRAE's website at: <https://www.ashrae.org/technical-resources/standards-and-guidelines/public-review-drafts>. To obtain a paper copy of any TPS draft, contact ASHRAE Inc, Attn: Standards Section, 180 Technology Parkway, Peachtree Corners, GA 30092, or email at: standards.section@ashrae.org. Note: paper copies are available for \$35.00 per copy if 100 pages or less and \$45.00 if over 100 pages.

30-day Public Review from
July 10, 2026, to August 9, 2026

- ♦ **ASHRAE Standard 90.1MR-P, *Standard for Minimum Energy Requirements for Low-Rise Residential Buildings***

1. PURPOSE: The purpose of this standard is to provide cost-justified minimum requirements for the energy-efficient design and construction of new residential buildings three stories or less above grade and for major renovations to existing residential buildings three stories or less above grade, considering first costs, economic impacts, and expected energy savings. This standard is intended to provide a simple, prescriptive path to achieve the objectives for a minimum standard which balances first cost and operational costs for an affordable housing solution.

2. SCOPE:

2.1 This standard applies to:

- a. new residential buildings three stories or less above grade;
- b. additions to residential buildings three stories or less above grade where new energy-related assemblies, systems, or equipment are installed; and
- c. major renovations to existing residential buildings three stories or less above grade where the project includes substantial replacement, alteration, reconfiguration, or upgrade of energy-related assemblies, systems, or equipment

2.2 This standard provides cost-justified minimum requirements for the design, construction, installation, and replacement, as applicable, of:

- a. building thermal envelope components;
- b. air leakage control measures;
- c. heating, ventilating, and air-conditioning systems;
- d. service water-heating systems;
- e. lighting systems;
- f. controls associated with covered systems; and
- g. other specifically identified energy-related residential building components and systems.

2.3 This standard applies to detached single-family houses, detached two-family houses, townhouses, and other residential buildings three stories or less above grade, and to residential portions of mixed-use buildings within the height limitations of this standard.

NEW PROJECTS—CALL FOR COMMENTS

Constructive comments are invited on the Title, Purpose, and Scope (TPS) for the following newly approved projects. TPSs for public comment can be accessed by going to ASHRAE's website at: <https://www.ashrae.org/technical-resources/standards-and-guidelines/public-review-drafts>. To obtain a paper copy of any TPS draft, contact ASHRAE Inc, Attn: Standards Section, 180 Technology Parkway, Peachtree Corners, GA 30092, or email at: standards.section@ashrae.org. Note: paper copies are available for \$35.00 per copy if 100 pages or less and \$45.00 if over 100 pages.

30-day Public Review from
July 10, 2026, to August 9, 2026

- ♦ **ASHRAE Standard 90.1MR-P, *Standard for Minimum Energy Requirements for Low-Rise Residential Buildings***

2.4 This standard does not apply to:

- a. transient lodging;
- b. buildings more than three stories above grade;
- c. nonresidential occupancies except residential portions of mixed-use buildings within the scope of this standard; or
- d. ordinary maintenance and repair activities that do not materially affect building energy use.

2.5 This standard shall not be used to abridge safety, health, environmental, or other applicable code requirements.

CALL FOR MEMBERS

A *Call for Members* is announced for the following PCs. Persons who are interested in serving on these ASHRAE committees are asked to indicate their interest by completing the online membership application forms listed under Instructions for New Applicants at <https://www.ashrae.org/pcmmemberapp> or by contacting Ryan Shanley at: ASHRAE, 180 Technology Parkway, Peachtree Corners, GA 30092; phone: 678-539-1125; fax: 678-539-2138; email

Standards.Section@ashrae.org.

- ♦ **ANSI/ASHRAE Standard 64-2020, *Method of Laboratory Testing Remote Mechanical-Draft Evaporative Refrigerant Condensers***

1. PURPOSE: This standard prescribes methods of laboratory testing remote mechanical-draft evaporative refrigerant condensers. .

2. SCOPE:2.1 This standard provides a method of laboratory testing for obtaining performance data of remote mechanical-draft evaporative refrigerant condensers, including:

- definition of terms,
- specification of data to be recorded,
- calculation formulas,
- test limits and tolerances, and
- apparatus and instrumentation with associated accuracies.

2.2 This standard does not cover the following:

- methods of test for production or field use,
- heat exchangers that do not fully condense refrigerant vapor, as in heat reclaim applications,
- methods for rating condensers, nor
- the performance impact of external air resistance devices not provided by the manufacturer.
- thermal performance corrections for barometric pressure, fan horsepower, and makeup water.

NEW PROJECTS—CALL FOR MEMBERS

A *Call for Members* is announced for the following new project committees. Persons who are interested in serving on these ASHRAE committees are asked to indicate their interest by completing the online membership application forms listed under Instructions for New Applicants at <https://www.ashrae.org/pcmmemberapp> or by contacting Connor Barbaree at: ASHRAE, 180 Technology Parkway, Peachtree Corners, GA 30092; phone: 678-539-1138; fax: 678-539-2138; email Standards.Section@ashrae.org.
