

# STANDARDS ACTIONS

## PUBLIC REVIEW—CALL FOR COMMENTS

Constructive comments are invited for the following Public Review Drafts, which can be accessed on ASHRAE's website at <https://www.ashrae.org/technical-resources/standards-and-guidelines/public-review-drafts>. All activity for reviewing and commenting on public review drafts can be accomplished completely online. To obtain a paper copy of any Public Review Draft contact ASHRAE, Inc. Attn: Standards Public Review, 180 Technology Parkway, Peachtree Corners, GA 30092, or via email at: [standards.section@ashrae.org](mailto:standards.section@ashrae.org). **Note: Paper copies are available for \$35.00/copy if 100 pages or less and \$45.00 if over 100 pages.**

**45-day Public Review from  
February 4, 2022 – March 21, 2022**

♦ **1<sup>st</sup> Public Review of BSR/ASHRAE/IES Addendum c to ANSI/ASHRAE/IES Standard 90.2-2018, *Energy Efficient Design of Low-Rise Residential Buildings***  
This addendum is based on the new TPS (Title, Purpose, and Scope) for Standard 90.2, which is being revised to accommodate the committee's goals to create a leadership standard for the benefit of jurisdictions, energy efficiency programs, and other organizations wishing to make advancements in residential energy performance. The new TPS would enable Standard 90.2 to cover high-rise residential buildings as well as retrofitted structures. It would also allow for future expansion of the standard to create provisions based on reductions in emissions where the current standard is strictly energy-based.
