PUBLIC REVIEW—CALL FOR COMMENTS

PUBLIC REVIEW—CALL FOR COMMENTS

Constructive comments are invited for the following Public Review Drafts, which can be accessed on ASHRAE's website at <https://osr.ashrae.org>. To obtain a paper copy of any Public Review Draft contact ASHRAE, Inc. Attn: Standards Public Review, 180 Technology Parkway, Peachtree Corners, GA 30092, or via email at: standards.section@ashrae.org. Paper copies are \$35.00/copy if 100 pages or less and \$45.00 if over 100 pages.

**30-day Public Review from
March 19, 2021 to April 18, 2021**

- ♦ **1st Public Review of BSR/ASHRAE Addendum q to ANSI/ASHRAE Standard 34-2019, Designation and Safety Classification of Refrigerants**

This addendum adds the zeotropic refrigerant blend R-473A to Tables 4-2 and D-2.

- ♦ **1st Public Review of BSR/ASHRAE Addendum r to ANSI/ASHRAE Standard 34-2019, Designation and Safety 1st Public Review of Classification of Refrigerants**

This addendum adds the zeotropic refrigerant blend R-427C to Tables 4-2 and D-2.

- ♦ **1st Public Review of BSR/ASHRAE Addendum s to ANSI/ASHRAE Standard 34-2019, Designation and Safety Classification of Refrigerants**

This addendum adds the zeotropic refrigerant blend R-448B to Tables 4-2 and D-2.

BSR/ASHRAE Addendum b to ANSI/ASHRAE Standard 62.2-2019, Ventilation and Acceptable Indoor Air Quality in Residential Buildings (Second Independent Substantive Change Public Review Draft)

Disentangling the requirements of ventilation rate, control, and operation makes the Standard easier to follow, enforce, and maintain over time. This proposed addendum clears up the issue that SSPC 62.2 has been struggling with regarding to whom the controls should be readily accessible. It is now clear that the dwelling unit occupant is the target of the readily accessible requirement except in the case of continuous local mechanical exhaust in multifamily dwelling units.

- ♦ **2nd ISC Public Review of BSR/ASHRAE Addendum b to ANSI/ASHRAE Standard 62.2-2019, Ventilation and Acceptable Indoor Air Quality in Residential Buildings**

Disentangling the requirements of ventilation rate, control, and operation makes the Standard easier to follow, enforce, and maintain over time. This proposed addendum clears up the issue that SSPC 62.2 has been struggling with regarding to whom the controls should be readily accessible. It is now clear that the dwelling unit occupant is the target of the readily accessible requirement except in the case of continuous local mechanical exhaust in multifamily dwelling units.

- ♦ **1st Public Review of BSR/ASHRAE Addendum e to ANSI/ASHRAE Standard 62.2-2019, Ventilation and Acceptable Indoor Air Quality in Residential Buildings**

This proposed addendum makes the air leakage rate for compartmentalization in multifamily dwellings more stringent. This change will reduce air and contaminant transfer between dwelling units in multifamily buildings, that is the intent of this section of Standard 62.2. The achievability of the proposed leakage rate is supported by recent measurements of air leakage rates in several thousand multifamily units.

**45-day Public Review from
March 19, 2021 to May 3, 2021**

- ♦ **1st Public Review of ASHRAE Addendum d to ASHRAE Guideline 28-2016, Air Quality within Commercial Aircraft**

This proposed addendum updates the information in Section 8.1.2.6 (Organophosphates) and Table 8.2.4c (Aircraft sampling data for TCP and TBP isomers). It also introduces an additional table (8.2.4d) which summarizes published laboratory analyses of TCPs in aviation engine oils.

INTERIM MEETINGS

JOIN A LISTSERVE

A complete listing of project committee interim meetings is provided on ASHRAE's website at: <https://www.ashrae.org/technical-resources/standards-and-guidelines/project-committee-interim-meetings>.

- ♦ **SPC 40-2014R, *Methods of Testing for Rating Heat Operated Unitary Air-Conditioning and Heat-Pump Equipment***, will hold a conference call on March 30, 2021 from 5:00 pm to 6:00 pm (Eastern). For additional information contact Ahmad Abu-Heiba, Chair of SPC 40 (abuheiba@gmail.com).
- ♦ **SSPC 62.2, *Ventilation and Acceptable Indoor Air Quality in Residential Buildings***. The SSPC 62.2 Envelope Subcommittee will hold a webinar on April 12, 2021 from 12:00 pm to 1:00 pm (Eastern). SSPC 62.2 will hold a webinar on April 22, 2021 from 11:00 am to 2:00 pm (Eastern). For additional information contact Mark Weber (<mailto:mweber@ashrae.org>).
