ANSI/ASHRAE Addendum bv to ANSI/ASHRAE Standard 135-2020
A Data Communication Protocol for Building Automation and Control Networks

January 5, 2023

This document lists all known *errata* to ANSI/ASHRAE Standard 135-2020bv as of the above date. Each entry is cited first by clause, then page number, except where an erratum covers more than one clause. The back page marking identifying the electronic publication of Standard 135-2020 is “Product code: D-86451 9/20”.

Changes to fix the errata are highlighted in gray. In these areas, text that is to be removed from the addendum is shown in ~~double-strikeout~~, and text that is to be added is shown with double underlines. This notation allows changes to the addendum to be indicated while preserving the traditional meaning of *italics* and ~~single-strikeout~~ to indicate changes to the standard.
